spect thereto, as may be established by the Director.

3. The Director of the Office of Defense Transportation may exercise the power, authority and discretion conferred upon him by this order through such persons and agencies, and in such manner, as he may determine.

(3) "Certified slaughterer" means any owner of livestock who has been certified by the Secretary of Agriculture under the provision of this order.

(4) "Certification" means certification by the Secretary of Agriculture pursuant to Section 3A of the Stabilization Act of 1942, as amended, as follows:

(i) With respect to a slaughtering plant, that such plant is operated under

sanitary conditions as herein defined and that the meat, meat products, and animal fats produced therein have been inspected and found to be clean, wholesome, and suitable for human consumption;

(ii) With respect to an owner of livestock, that such owner is entitled to have such livestock custom slaughtered in a designated certified slaughtering plant without charge against any quota or other slaughtering limitation, except as may be imposed as a condition of certification under this order.

(5) "Federal inspection" means inspection pursuant to the provisions of the act of March 4, 1907 (34 Stat. 1260), as amended, 21 U.S.C. 71, and as extended by Public Law 602, 77th Congress, approved June 10, 1942 (56 Stat. 351), and the rules and regulations promulgated thereunder.

(6) "Sanitary condition", with respect to the certification of a slaughtering plant, means that such plant:

(i) Has a well-constructed building in a good state of repair, with an adequate drainage system and a supply of clean hot and cold water sufficient to maintain the facilities, plant and products produced therein in a sanitary condition;

(ii) Has lighting and ventilation sufficient for all slaughtering and processing operations;

(iii) Is protected against flies and rodents and is located a reasonable distance from any stable, barnyard, hog lot, refuse heap, privy, or other source of fly breeding or contamination;

(iv) Has all necessary equipment and facilities, so arranged as to permit the handling of animals and carcasses in a clean and sanitary manner;

(v) Has adequate facilities, apart and separate from slaughtering and processing operations, for the segregation and disposal of condemned carcasses and for the handling and disposal of inedible by-product and offal;

(vi) Has adequate facilities for cooling, chilling, and holding carcasses and edible by-products until moved into distribution channels or adequate facilities for cooling, chilling, and holding are available in the immediate vicinity.

(7) "Governmental agency" means the Army, Navy, Marine Corps, or Coast Guard of the United States (excluding for the purposes of this order, United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations), United States Department of Agriculture, (including any corporate agency thereof), the War Shipping Administration, and the Veterans' Administration.

(8) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(9) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any employee of the United States Department of Agriculture to whom the Administrator has delegated, or may hereafter delegate, any or all of the authority vested in him by this order.

(b) *Exemptions from slaughtering quota restrictions.* Subject to the provisions of this order, no quota or other slaughtering limitation shall be imposed upon or shall be operative against any certified slaughterer or any certified slaughtering plant, to the extent that the slaughtering operations on behalf of such certified slaughterer or in such certified slaughtering plant are conducted in accordance with the requirements for certification herein contained.

(c) *Persons who may apply for certification.* Any owner or operator of a slaughtering plant, and any owner of livestock which is to be custom slaughtered may apply for certification, except the following:

(1) An owner or operator of a slaughtering plant which on the effective date of this amendment, is operating under Federal Inspection with respect to all of its slaughtering operations.

(2) An owner or operator of a slaughtering plant which was operating under Federal inspection prior to the effective date of this amendment and which, in the judgment of the Secretary of Agriculture, withdrew from such inspection for the purpose of applying for certification under this order.

(d) *Applications for certification.* Applications for certification may be filed with the Secretary of Agriculture. Application forms will be furnished upon request to the Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All applications shall be properly executed and shall contain all the information therein requested. If the applicant is an owner of livestock and does not own or operate a slaughtering plant, he should state upon the application whether or not arrangements have been made with the owner or operator of a slaughtering plant for the custom slaughter of such livestock in such plant, and if such arrangements have been made the name and address of the plant should be given. If the applicant is an owner or operator of a slaughtering plant or facility, an examination of such plant or facility will be made to determine whether the same is operated under sanitary conditions. An investigation of all facts disclosed in the application, including facts concerning compliance with Office of Price Administration regulations and War Food Orders, will be made to determine whether certification is justified. All applications shall contain a statement by the applicant that he agrees to comply with the provisions of this order and with any rules, regulations, or orders that may be issued thereunder. The applicant shall also agree that any certification issued to him shall be contingent upon compliance with such provisions.

(e) *Certification of owners of livestock.* Certification granted to owners of livestock who do not own or operate slaughtering plants shall specifically designate the slaughtering plant in which such livestock is to be custom slaughtered. Such certifications shall be valid only with respect to slaughtering operations performed for or on behalf of such owner in such designated plant.

(f) *Certification of designated parts of slaughtering plants.* Certification

may be had with respect to a designated part only of any slaughtering plant. The provisions of this order shall apply only to meat, meat products, or animal fats produced in such designated part of such plant.

(g) *Examination of slaughtering plants and inspection of meat.* Certification with respect to any slaughtering plant shall be based upon an examination of such plant to determine whether the same is operated under sanitary conditions as defined herein, and an inspection of the meat, meat products, or animal fats produced therein to determine whether the same are clean, wholesome, and suitable for human consumption. Inspection of meat, meat products, and animal fats shall be made by inspectors under the supervision of veterinarians, both duly qualified under the laws of the State, city, or county in which the affected plant is located, or by inspectors approved by the Administrator. Inspection of the meat, meat products, or animal fats produced in any slaughtering plant shall include ante mortem inspection immediately prior to slaughter, and post mortem inspection immediately after slaughter and during the processing of the carcasses or meat.

(h) *Supervision of inspection.* All slaughtering operations and all inspections authorized hereunder shall be subject to approval by the Administrator and to supervision by authorized representatives of the Department of Agriculture, and shall be conducted in accordance with such instructions and requirements as the Administrator may prescribe.

(i) *Compliance with set aside requirements.* (1) Any certification granted pursuant to this order is expressly conditioned upon compliance, by the person concerned, with all applicable orders requiring the setting aside, reserving, holding, processing, and packaging of meat, meat products, and animal fats for procurement by the armed services of the United States or by other governmental agencies; and with any requirement of the Administrator, addressed to the owner or operator of the plant or to the owner of the livestock, with respect to the making available of meat, meat products, or animal fats to the armed services of the United States or to other governmental agencies. Any violation of such orders or requirements shall be cause for refusal to grant certification or for the termination or revocation of any certification theretofore granted.

(2) Procurement officers of the armed services of the United States or of other governmental agencies may require additional inspection of animals or of the carcasses, meat, meat products, or animal fats derived therefrom which are required to be set aside or made available for procurement by the armed services of the United States or other governmental agencies.

(j) *Markings required.* Each accessible wholesale cut of meat which has been inspected and passed pursuant to this order, whether in the entire carcass or detached therefrom, shall be stamped by the inspector with the legend "Certificate No.," followed by the certificate

number assigned to such plant by the Secretary of Agriculture. Such legend shall be contained in a rectangular design. Such marking shall be in addition to any mark or number assigned by the State, city, or local authorities and commonly used by such plant.

(k) *Movement in interstate or foreign commerce.* Meat produced in accordance with the requirements for certification as specified in this order, including any rules, regulations, or orders issued pursuant thereto, and which is properly marked as required in paragraph (j) hereof shall have the same status for purposes of transportation in interstate or foreign commerce as meat produced in plants operated under Federal inspection.

(l) *Refusal, suspension, termination, and revocation of certifications.* The Administrator may refuse to grant certification or may suspend, terminate, or revoke any certification theretofore granted if he determines that:

(1) The slaughtering plant concerned does not have or has failed to maintain sanitary conditions as herein defined.

(2) The meat, meat products, or animal fats produced in such slaughtering plant will not be or are not being disposed of in legitimate trade channels in accordance with law.

(3) The owner or operator of such slaughtering plant or the owner of the livestock has failed to comply in full with orders requiring the setting aside, reserving, holding, processing, and packaging of meat, meat products, and animal fats for procurement by the armed services of the United States or other governmental agencies, or with requirements of the Administrator with respect to the making available of meat, meat products, or animal fats for the armed services of the United States or other governmental agencies.

(4) The owner or operator of such slaughtering plant or the owner of the livestock has failed to comply with any other provision of this order or with the requirements of any other War Food Order with respect to meat.

(5) Certification has been erroneously granted or is based upon false or erroneous information.

(m) *Records and reports.* (1) Every owner or operator of a slaughtering plant and every owner of livestock to whom certification is granted under this order shall keep accurate records showing the number of all animals purchased, slaughtered, and condemned, together with the reason for condemnation in each case, the quantity of meat, meat products, or animal fats sold in interstate commerce and the quantity of such products sold in intrastate commerce. Such records shall be kept separate for each species of livestock slaughtered.

(2) The Administrator shall be entitled to obtain such information from and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(n) *Audits and inspections.* The Administrator shall be entitled to make

such audits or inspections of the books, records, and other writings, premises, livestock, meat, meat products, or animal fats of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(o) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by a request addressed to the Order Administrator, obtain a review of such action by the Administrator. After said review, the Administrator may take such action as he deems appropriate, which action shall be final.

(p) *Violations.* (1) If the Administrator has reason to believe that any owner or operator of a slaughtering plant is violating any provision of this order which deals with sanitary or inspection requirements, and the Administrator is accordingly unable to certify that the meat, meat products, or animal fats produced in such plant are clean, wholesome, and suitable for human consumption, he may, without prior notice or hearing, suspend the certification theretofore granted to the owner or operator of such plant: *Provided, however,* That such owner or operator shall, within 10 days, be given an opportunity to appear and be heard on the question of whether such suspension shall be vacated or shall be made permanent by way of termination or revocation of the certification. Such appearance and hearing shall be before an authorized representative of the Department of Agriculture and in accordance with the procedure established by the Administrator. Any certified slaughterer and any owner or operator of a certified slaughtering plant who violates any other provision of this order shall likewise be liable to suspension, termination, or revocation of any certification theretofore granted: *Provided, however,* That suspension, termination, or revocation of any certification for the violation of any provision of this order other than sanitary or inspection requirements shall be subject to the procedural regulations set forth in War Food Order No. 78-1, as now in effect or as it may be hereafter amended.

(2) Any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(q) *Delegation of authority.* (1) The administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to

the administration of this order, are hereby delegated to the Administrator. The Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(2) The Administrator is authorized to establish such rules and regulations as he may deem necessary or appropriate in order to provide for the inspection of slaughtering plants seeking certification hereunder, and of meat, meat products, or animal fats produced therein.

(r) *Communications.* All reports required to be filed hereunder, all applications for certification under this order, and all communications concerning this order shall, unless otherwise provided, be addressed to Order Administrator, War Food Order No. 139, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(s) *Territorial scope.* This order shall apply within the 48 States and the District of Columbia.

(t) *Effective date.* This amendment shall become effective at 12:01 a. m., e. s. t., May 24, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 139, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-940]

WILLIAM S. KNOBLOCK

William S. Knoblock of 3418 Avelon Boulevard, Los Angeles, California, is engaged in the manufacture of storage batteries. During the period from June 1, 1945 through January 31, 1946 while acting for Battery Manufacturing Associates, which he owned and controlled, William S. Knoblock used a considerable amount of lead in the manufacture of storage batteries although he had no quota to use such lead, in violation of Conservation Order M-38. William S. Knoblock was aware of the provisions of Order M-38 and his actions were so grossly negligent as to constitute wilful violations thereof. These violations have diverted critical materials to uses not au-

thorized by the War Production Board and the Civilian Production Administration. In view of the foregoing, it is hereby ordered, that:

§ 1010.940 Suspension Order No. S-940.

(a) For a period of one year from the effective date of this order, William S. Knoblock shall not use any lead in the manufacture of storage batteries nor shall any allocation or authorization to use lead for such purposes be granted to him during this period.

(b) Nothing contained in this order shall be deemed to relieve William S. Knoblock from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to William S. Knoblock or to any concern owned or controlled by him, his successors or assigns, or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) This order shall take effect on the date of issuance.

Issued this 22d day of May 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Schedule I, as Amended
May 23, 1946]

CRITICAL PRODUCTS

(a) **Introduction.** The table in this Schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This Schedule supersedes former Directions 1 through 5 and 7 through 12 to PR-28 covering critical products.) When effective assistance of other kinds is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 28 for material which is needed to sustain or increase the production of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 28 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a

rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and available without a rating.

(b) Explanation of table.

Column I—Critical products. Column I lists the critical products for which CC ratings may be granted to sustain or increase production. When "specialized machinery" for another critical product is listed in Column I, it includes only machinery and equipment designed solely for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular piece of equipment is designed and built expressly for a producer of the critical product.

Column II—Persons eligible. Column II states the persons who may apply for CC ratings. Where Column VI indicates that CC ratings may be assigned for construction, the builder or contractor may apply instead of the person listed.

Column III—Production materials. (1) If the word "yes" appears in Column III, the CPA may assign CC ratings to the person named in Column II to get production materials needed to make the item listed in Column I regardless of the applicant's minimum economic rate of operation. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the item he makes, CC ratings may also be assigned to him for such supplies or for materials needed to make them. Applications for CC ratings for textile fabrics or yarns should be made under Priorities Regulation 28A, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subparagraph (d) (5) (i).

(2) If the word "no" appears in Column III, CC ratings will be assigned for production materials only as provided in Priorities Regulation 28. The same rule applies to any production materials expressly excluded from Column III.

Column IV—Capital equipment. (1) If the word "yes" appears in Column IV, the CPA may assign CC ratings to the person named in Column II to get capital equipment which either (i) will result in a substantial increase in production of the item listed in Column I, or (ii) is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) Where the word "no" appears in Column IV, CC ratings will be assigned for capital equipment only as provided in Priorities Regulation 28. The same rule applies to any capital equipment expressly excluded from Column IV.

Column V—MRO. (1) If the word "yes" appears in Column V, the CPA may assign CC ratings to the person named in Column II to get maintenance, repair and operating supplies (MRO) which he needs to use in making the item listed in Column I.

(2) If the word "no" appears in Column V, CC ratings will be assigned for MRO only as provided in Priorities Regulation 28.

Column VI—Construction. (1) If the word "yes" appears in Column VI, the CPA may assign CC ratings to the person named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or modernized old ones where increased production of the item listed in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CC ratings will be assigned for construction materials only as provided in Priorities Regulation 28.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 1, Supp. 2,
as Amended May 23, 1946]

BEGINNING CONSTRUCTION

§ 4700.3 (a) *What this supplement does.* Veterans' Housing Program Order 1 restricts the "beginning" of certain kinds of work on structures. "To begin work on a structure" is defined in paragraph (c) (2) as "to incorporate into a structure on the site materials which are to be an integral part of the structure." The restrictions of VHP-1 on the beginning of construction do not apply to work which takes place before construction has begun. VHP-1 also does not apply to work which was begun before it became effective and which was being carried on at the time it became effective and is carried on normally after that time. This supplement explains these provisions of the order and gives examples of their application.

(b) *Beginning construction.* Materials which are to be an integral part of a structure are considered to have been incorporated in the structure on the site only when they are placed in the position in which they are to remain permanently as a part of the structure. Furthermore, materials are considered to be an integral part of a proposed structure only if they will be physically attached to the building or structure and will be permanently located within the boundary lines of its walls. Construction is not "begun" under VHP-1 unless both these conditions are met. Paragraphs (c) and (d) below list examples of cases where construction has not begun and has begun.

(c) *Cases where construction has not begun.* (1) The following kinds of work do not constitute beginning construction on a proposed structure and the cost of such work need not be included in computing the cost of a job under paragraph (d) (2) of VHP-1 to determine whether the job comes within the applicable allowance under paragraph (d) (1) of the order:

- Demolition of buildings.
- Tearing out partitions or walls in a building which is being altered.
- Site preparation such as excavating, grading, filling with dirt, gravel or crushed stone.
- Laying down driveways, walks, railroad sidings, etc.
- Erecting fences, work sheds and construction shanties.
- Laying pipes, conduits and wires outside the boundary lines of the walls of the structure.
- Building retaining walls not physically incorporated within the structure.
- Driving sheet piling to prevent cave-ins.
- Constructing or erecting forms for concrete.

(2) The following operations do not constitute beginning construction on a proposed structure but the cost or value of the fabricated items or the materials must be included in computing the cost of a job in accordance with paragraph (d) (2) of VHP-1:

- Fabricating structural steel shapes or other prefabricated sections, panels or buildings, whether off-site or on the site.
- Purchasing materials or receiving delivery of materials on or off the site.

(d) *Cases where construction has begun.* The following kinds of work constitute the beginning of construction on a proposed structure:

- Pouring concrete footings or other foundations.
- Placing reinforcing rods or mats in place in an excavation preparatory to pouring concrete.
- Driving permanent bearing piles or caissons.
- Installing pipes, conduits or wires in the place where they will remain permanently as part of the building, if located within the boundary lines of the walls of the proposed structure.
- Building foundation walls, whether laid dry or with mortar.
- Incorporating permanently in place additional building materials in a building which is being remodelled, whether the incorporation is for the purpose of repairing the parts of the building left standing or as part of the new alterations.

(e) *Carrying on construction.* The exemption from VHP-1 for work begun before the issuance of the order applies only to work which was being carried on when the order was issued and which is carried on normally afterward. This means that if a job was started before the issuance of the order, but was abandoned or discontinued either before or after the issuance of the order, it is not exempt from the order by reason of the earlier beginning. However, this does not mean that work must be carried on every day. If construction was or is suspended temporarily for reasons beyond the builder's control such as inability to get materials or labor, or a work stoppage, or unfavorable weather conditions, the construction job is considered to have been carried on normally within the meaning of VHP-1. However, a suspension of work for more than 3 months is not considered a temporary suspension regardless of the reasons for the suspension. Application must be made to proceed with any construction on which work has been suspended for more than 3 months.

(f) *Scope of work begun.* The exemption for a structure begun before the issuance of VHP-1 is limited to the structure which was under construction at the issuance of the order. It does not apply to any other structure, even though the two are to be used together and one would be useless without the other, or even though the two structures have common heating systems or other common services, or even though the two are connected by pipes, wires, connecting passageways, bridges or the like. Furthermore, the exemption only applies to a structure of the kind and size which

was under construction at the issuance of the order. For example, if a builder has begun a 3-story building 100 feet by 100 feet before the issuance of the order and was constructing this building at the time the order was issued, he would be permitted to complete this building, but he would have to get authorization if he later decided to redesign the proposed structure and build a 5-story building 100 feet by 500 feet. The exemption is limited to the building which he was in fact building when the order was issued. This rule also applies to modernization jobs. (The requirement of paragraph (d) (3) of VHP-1 that all related modernization work be considered a single job does not exempt all modernization work merely because one part of it has been started before the issuance of the order.) When one part of a modernization program has been started before the issuance of the order, a later part of the program can be considered to have been started by that time only if the two parts of the program are so closely related in space, purpose and performance as to be inseparable.

(g) *When the order took effect.* VHP-1 was filed in the Division of the Federal Register and was made available for public inspection at 11:54 a. m., eastern standard time, on March 26, 1946. VHP-1 became effective at that time with respect to the 48 States, the District of Columbia, Puerto Rico, and the Virgin Islands. Amendment 1 to VHP-1 extending the applicability of the order to the Territory of Hawaii was filed in the Division of the Federal Register and made available to the public at 10:04 a. m., eastern standard time on April 12, 1946. Therefore, the order became effective in the Territory of Hawaii at 4:34 a. m., Hawaiian standard time, on April 12, 1946.

Issued this 23d day of May 1946.

SEC. 4. *Sales or Services for which prices are not specifically established.* Any person desiring to make a sale of items or charge for services covered by this regulation and whose selling price is not specifically established by the regulation shall make application to the Lumber Branch, Office of Price Administration, Washington 25, D. C. for a price. The application must contain a complete description of the item or service to be priced, the applicant's March 1942 selling price of the item or service, if he sold such item or service at that time, or his selling price in the first month preceding March 1942, if he had no sales in March 1942, his requested selling price or charge and his method of arriving at that price or charge, including material, labor, transportation, storage or other factors affecting the requested selling price or charge.

The requested selling price or prices may be used pending approval of a price by the Office of Price Administration subject, however, to adjustment to the price finally approved. Prices not disapproved within 20 days from the receipt by the Office of Price Administration of application containing the information necessary and required for establishing a price or prices are approved until specifically revoked.

3. Section 6 is amended to read as follows:

SEC. 6. *Definitions*—(a) *Dumper or emptier.* One who purchases commodities in barrels, and/or dumps or empties the contents of barrels, or his agent.

(b) *Peddler.* One who attains used barrels from emptiers for the purpose of resale and makes local delivery to purchasers or, in case of shipments by rail, makes delivery to freight car without storing, selecting or reconditioning them.

(c) *Used tight barrel dealer.* One, other than a dumper, peddler, broker, blender, bottler, or agent thereof, who has storage facilities and is engaged in the manufacture, buying, selling, reconditioning, reconditioning, repairing and rebuilding of tight barrels and who has on his premises the machinery or tools necessary to perform the above listed operations on the containers which he sells or services. However, coöperage organizations which are subsidiaries of or affiliates of dumpers, which in other respects qualify under the terms of this definition and who prior to July 1, 1945 were engaged in manufacturing new coöperage and reconditioning and selling reconditioned tight barrels to other than parent companies or their affiliates are qualified as used tight barrels dealers.

(d) *Metropolitan Area.* An area within a radius of 30 miles of the seller's place of business.

(e) *Reconditioned barrel*—(1) *Regular run.* A used barrel with all sound staves, heads and hoops which has been steamed and/or washed clean inside,

washed outside, flagged, if necessary, reconditioned to liquid tightness; except, at the buyer's option one sound fitting head may be furnished loose and the hoops not driven to a final tightness, provided the barrel has been completely reconditioned and tested.

(2) *Whiskey barrel*—(i) *Char on.* A used whiskey barrel originally made of sap clear white oak, reconditioned to liquid tightness and from which the char has not been removed; broken staves, and/or defective heading pieces to be replaced by removing defective material and properly refitting the replacement material without completely collapsing the barrel; joints flagged if necessary; hoops to be shortened if required to assure proper fit after driving.

(ii) *Scraped or char removed and reconditioned used whiskey barrel.* A used whiskey barrel from which practically all of the char has been removed by lathing, scraping, sanding, or some comparable method, without the necessity of completely collapsing the barrel during the process; all defective material replaced and barrel properly reconditioned to liquid tightness, except, at buyer's option, one sound fitting head may be furnished loose and the hoops not driven to final tightness, provided, however, the barrel has been completely reconditioned and tested.

(f) *Rebuilt or remanufactured whiskey barrel.* A whiskey barrel that has been completely remanufactured from properly prepared used staves and recircled used heading, and/or new staves or new heading, if required. All staves properly joined, barrel steamed, fired, trussed, recrozed and finished off by the same processes as used in new barrel manufacture. Hoops to be either reworked used hoops, or new hoops, or combinations of both. This rebuilding process starts with a completely collapsed barrel and/or used shoo.

(g) *Service rebuilding or remanufacturing of used whiskey barrels.* The rebuilding of a whiskey barrel as described in (f) above except that the major portion of the materials to be used are the property of the customer and will be furnished in the form either of a standing or knocked-down used whiskey barrel.

(h) *Sound barrel.* An unreconditioned barrel, complete with all hoops, no broken, cracked or defective staves, and two heads (one of which may be dropped) without breaks, cracks or other defects. Warpage in heads which will fit the croze and minor defects in staves or heads which will take up in hoop driving do not constitute unsoundness. This barrel requires no more than hoop driving (and in the case of dropped head barrels, the insertion of the second head) to make it liquid tight.

(i) *Selected barrel.* A sound barrel, partially or wholly unreconditioned, which has been selected for uniformity or comparability of size, type and condition.

(j) *Cull barrel.* An unsound, defective barrel.

(k) *Distillery run barrels.* Used whiskey barrels which have not been reconditioned but any quantity of which contains at least 50 percent sound barrels.

(l) *As they run barrels.* Used regular run barrels which have not been reconditioned or selected in any way.

(m) *Regular run tight barrels.* All used tight barrels except those which have been used for whiskey or other commodities requiring a similar high quality barrel.

This amendment shall become effective on May 23, 1946.

NOTE: Approval of the reporting requirements in this amendment waived by Budget Bureau.

Issued this 23d day of May 1946.

Administrator.

PART 1389—APPAREL

[MPR 607,¹ Amdt. 1]

MANUFACTURERS' PRICES FOR MEN'S AND BOYS' TAILORED CLOTHING AND RELATED GARMENTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation 607 is amended in the following respects:

1. The third sentence in section 1 (b) is amended to read as follows: "However, if a person, who qualifies as a manufacturer under conditions (1) or (2), distributes garments through retail stores which are separate legal entities, and some of these stores are under the same ownership and control as such person while the remainder are independent, sales by the stores are not considered manufacturers' sales under condition (3); in this case, sales by the person to the stores are considered manufacturers' sales."

2. The first sentence of Section 4 (a) (3) is amended to read as follows:

(3) If you sell the garments which you manufacture direct to individual ultimate consumers, as well as to separate retail stores (i. e., separate legal entities, some or all of which are not under the same ownership and control as your business), you may set up "sub-groups" and select a different division factor for each subdivision.

3. Section 4 (b) (3) is amended to read as follows:

(3) If you select class division factors, the total range between the highest and lowest individual factor may not exceed .15. (For example, you may select class factors of .65 and .80, but you may not select class factors of .64 and .80.) However, if you sell the garments which you manufacture direct to individual ultimate consumers as well as to separate retail stores (i. e., separate legal entities, some or all of which are not under the same ownership and control as your business), the total range between your lowest factor for sales to consumers and

¹ 11 F. R. 2693.

your highest factor may be greater than .15 but must not exceed .30.²

4. Two undesignated paragraphs and three examples are added at the end of section 5 (b) (1), to read as follows:

For purposes of paragraph (b), the price used to establish the "highest price line limit for the corresponding garment classification under the applicable provision of MPR 177" must be a price for sale of a "basic garment." That is, a price charge for a special order garment, or for a garment made with special features (where its price consists of a base amount plus a differential for such features), may not be used to establish a MPR 177 highest price line limit. The differential established, in the applicable MPR 177 base period, between the price of a basic garment and the price for a "special garment" is part of your highest price line limit for the group, but it is applicable only to such special garments, and then only if you have elected to figure the direct cost of these garments separately (see Example 10A below).

Moreover, if, in the applicable MPR 177 base period, you sold the same garment to different classes of trade at different prices, this price differential must be reflected in your highest price line limit. Finally, a price charged for a made-to-measure garment may not be used to establish the MPR 177 highest price line limit for a ready-made garment, and vice versa.

Example 10A. T, a manufacturer of men's ready-made regular weight suits, desires to determine his highest price line for that group (#18) under this regulation. T sells these garments to persons other than individual ultimate consumers.

During the period July through November 1941 (MPR 177 base period) T booked garments of this group at \$32.50, \$35.50 and \$37.00 net. The first two prices were for "basic garments." The \$37.00 garment was the same as the \$35.50 one, except for special features. For these features, T had an established differential of \$1.50, which he added to the \$35.50 price of the regular garment.

The \$37.00 price may not be used as a basis for establishing a highest price line limit, since, by the proviso at the end of section 5 (b) (1), it is not considered a price for a basic garment. Accordingly, T must use \$35.50 as his base.

§ 1389 104 (a) (1) of MPR 177, T is permitted to add to this base the amount indicated in Appendix A (7½% of that portion of the price which does not exceed \$30.00; 5% of that portion which exceeds such limit). Thus, T's highest price line limit for the group under MPR 177 is \$38.025 (\$35.00 plus \$2.525). Under section 5 (b) (1) (ii) of MPR 607, T's highest price line limit for the group is 105% of his MPR 177 highest price line limit, or \$39.93.

For a garment made with special features, T has a limit of \$41.43 (\$39.93 plus \$1.50). However, he may charge this price under MPR 607 only if: (1) the garment is made with such features; and (2) he has elected to compute the direct cost of the model separately, and the price obtained by applying his divi-

² If you select sub-group factors (as provided by paragraph (a) (3)), you must not use a division factor for any sub-group which is more than .15 below your general division factor. (For example, if your general division factor is .65, you may use a sub-group factor of .50, but not one of .49.)

sion factor to the model's direct cost equals or exceeds \$41.43.

Example 10B. P, a manufacturer of men's ready-made regular weight suits, desires to determine his highest price line limit for that group under this regulation. P sells these garments to retailers and wholesalers.

During the period July through November 1941 (the MPR 177 base period), P booked garments of this group at \$37.50 less 2%, for sales to retailers, and at \$37.50 less 7%, for sales to wholesalers. Under MPR 607, P's highest price line limit becomes \$42.13 [\$37.50 plus \$2.625 (the adjustment permitted under MPR 177), times 1.05 (the adjustment permitted under section 5 (b) (1) (ii) of MPR 607)]. However, for sales to retailers it is subject to terms of 2%, while for sales to wholesalers it is subject to terms of 7%.

Example 10C. V, a manufacturer, has established a highest price line limit under MPR 177 of \$55.00 net for men's made-to-measure regular weight suits. He did not manufacture ready-made suits during the MPR 177 base period, but now desires to produce such garments. What is V's highest price line limit for ready-made suits?

Since a highest price line limit for made-to-measure garments may not be used for ready-made garments, V could not establish a limit for these garments under MPR 177. Accordingly, V must apply for a highest price line limit for ready-made suits, pursuant to section 7 of MPR 607.

5. Subdivisions (ii) and (iii) of section 5 (d) (2) are amended to read as follows:

(ii) The prices arrived at by dividing the direct cost of each garment in the group by the applicable division factor are uniform (note: material cost shall be calculated on the basis of the fabric range which you have set up for the group for your first selling season under the regulation); and

(iii) The maximum price of all garments in the group is above your highest price line limit for the group, determined under paragraph (b) above.

6. Section 5 (d) (4) is amended to read as follows:

(4) *Standard for authorizing increased highest price line limits.* If you meet the conditions set forth in (2) above, an increased highest price line limit will be authorized by order for each group number, equal to the price calculated by dividing the direct cost of garments in the group by the applicable division factor, or equal to 110% of your MPR 177 highest price line limit for the group, whichever is lower.

7. A sentence is added at the end of section 6 (b) (3) to read as follows: "If the contractor's charge does include such items of labor overhead cost, because the obligation to pay for these items is his, you may include the dollars and cents cost of the items as part of your direct cost, provided that such cost is separately stated on the contractor's invoice."

8. An undesignated paragraph is added at the end of section 7 (a) (3) to read as follows:

Highest price line limits will be authorized by order which are in line with the limits established by the firm or firms with which the owners of your business have been associated, or in line with the adjusted limits set forth in Appendix J.

9. An undesignated paragraph is added at the end of section 8, to read as follows:

The records required by this regulation shall be kept, and made available for examination by OPA, at the following places:

(a) If you are a manufacturing-retailer, at your central office.

(b) If you are not a manufacturing-retailer and you have only one plant, at that plant.

(c) If you are not a manufacturing-retailer and you have several plants or no plant, at your principal sales office.

10. The last sentence in section 10 (e) is deleted.

11. A sentence is added at the end of section 17 to read as follows: "However, if you are a manufacturing-retailer, your OPA district office means the OPA office for the district in which is located your central office."

12. In paragraph (a) (3) (i) (a) of Appendix E, the date "March 1, 1945" in the first sentence is amended to read "March 1, 1946."

13. In Step 1 of paragraph (a) (3) (i) (b) in Appendix E, the date "March 1, 1945" is amended to read "March 1, 1946."

14. Footnote 26, which relates to the phrase "1946 fall selling season" in Step 1 of paragraph (a) (4) in Appendix E, is amended to read as follows:

²⁰ If you did not cut a particular garment group (or price line, style or model, if you have elected to figure yardage on one of these bases), use the first six months period prior to the effective date of the regulation in which you cut this group (or price line, style or model). If you did not cut the garment group (or price line, style or model) in a past six months period, you may, for purposes of determining the maximum price at which you sell a garment, estimate the average yardage to be consumed by the group (or price line, style or model). However, prior to delivery of such garment you must calculate the actual average yardage for the garment group (or price line, style or model), based on cuttings up to that time; if the actual average yardage is less than the estimated yardage, you must revise your maximum price for the garment.

If you use Method Two, base your calculation on experience during the last six months of 1945. If you did not cut a particular garment group (or price line, style or model) during this period, follow the rule stated in the first paragraph.

15. In Example 13, which is at the end of Step 3 of paragraph (a) (4) in Appendix E, the dates in the first column of Form IV are amended to read as follows:

Date cutting completed (1)	
4/12/45	7/18/45
4/20/45	7/23/45
5/5/45	8/5/45
5/10/45	8/18/45
5/20/45	8/25/45
6/6/45	9/3/45
6/10/45	9/15/45
6/20/45	9/20/45
7/15/45	9/27/45

16. Footnote number 38a is inserted at the end of the second sentence of the third paragraph of paragraph (c) (1) (ii) in Appendix E, and the text of the footnote is added to read as follows:

^{28a} If the piece work costs of particular models or styles do not vary among price lines in a garment group, you may, instead of obtaining a weighted average piece-work cost for each price line, find a weighted average piece-work cost for the garment group. To do this weight the piece-work cost of each style or model by your total estimated deliveries of such style or model throughout the group. At the end of the selling season you must reweight the piece work cost of each style or model by your actual deliveries of such style or model throughout the group, and, if the actual is less than 98% of the estimate, you are in violation and subject to the penalties outlined in the text above.

17. Paragraph (c) (2) of Appendix E excluding the note at the end of the subparagraph is amended to read as follows:

(2) *Contractor's services.* For garments fabricated by a contractor, figure as direct labor cost an amount equal to 80% of the contractor's net service charge for direct labor, markup on direct labor and trim furnished by the contractor. If the contractor's charge has been increased, to reflect a wage increase granted since August 18, 1945, you must subtract the amount attributable to the wage increase and take 80% of the reduced figure. However, if the contractor's charge includes the items of labor overhead cost enumerated in Section 6 (4), because the obligation to pay for these items is his rather than yours, you may also include the dollars and cents cost of these items as part of your direct cost: *Provided*, That such cost is separately stated on the contractor's invoice.

If the same garment is fabricated both in your own plant and by a contractor, you may combine the direct labor costs of the garment and obtain a weighted average cost. To do this, weight each direct labor cost by your estimated production from each source during the selling season for which the garment is scheduled. At the end of that selling season you must reweight by your actual production during the season, and, if the actual weighted average direct labor cost is less than 98% of the estimated weighted average cost, you are in violation of the regulation. The amount of overcharge is the difference between the total dollar amount which you actually charged and the total dollar amount which you could have charged had your maximum prices been based on the actual weighted average direct labor cost. For each subsequent selling season (or at the start of each subsequent six months period, Method Two), you must follow the same procedure.

18. Paragraph (d) of Appendix E, excluding the note at the end of Example 16, is amended to read as follows:

(d) *How to calculate certain labor overhead costs—(1) Life, health or accident insurance; retirement or pension funds.*

Step 1. If your labor agreement specifies what percentages of factory labor pay roll should be allowed for these items, use those percentages. If no percentages are fixed, determine an aggregate percentage as follows: select a representative period (not less than one month) in which payments for these items were made; divide the amount expended for such items by your factory labor pay roll for the period (if your pay-roll account reflects wage increases granted after August 18, 1945, you must adjust such account so as to eliminate the effect of such wage increases).

Step 2. For a representative period (not less than one month), find the ratio of your direct labor pay roll to your factory labor pay roll. (Direct labor shall include only the operations set forth in section 6 (a) (3). If your pay roll accounts reflect wage increases granted after August 18, 1945, you

must adjust such accounts so as to eliminate the effect of such wage increases.)

Step 3. Multiply the ratio found in Step 2 by the percentage (or percentages) found in Step 1.

Step 4. Apply the percentage (or percentages) found in Step 3 to the direct labor cost of the garment found under paragraph (c) above.

(2) *Holidays.*

Step 1. Divide the number of paid holidays per year by the number of working days per year.

Step 2. Multiply the percentage found in Step 1 by the ratio of your direct labor payroll to your factory labor payroll, found in Step 2 of subparagraph (1) above.

Step 3. Apply the percentage found in Step 2 to the direct labor cost of the garment found under paragraph (c) above.

(3) *Vacations.* If payments for vacations were made during 1945, divide the amount expended for this item by your direct labor payroll for that year; apply the resultant percentage to the direct labor cost of the garment found under paragraph (c) above. If payments for vacations were not made during 1945, you may estimate what percentage of your direct labor payroll this item will represent; then apply the estimated percentage to the direct labor cost of the garment found under paragraph (c) above.

NOTE: You must preserve all the records on which your calculation of certain labor overhead costs is based. If you have estimated the cost of vacations, you must prepare and keep a record showing how your estimate was arrived at.

19. The heading to Column (4) of item 10 in Form V in Appendix G is amended to read as follows:

Total cost
per yard
[(2) + (3)]
(4)

This amendment shall become effective May 23, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of May 1946.

Administrator.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. What this regulation does. This regulation fixes dollar-and-cents ceiling prices for live hogs, including live pigs. It does not apply

(a) To sales or deliveries of live hogs for breeding or for serum purposes, or of live hogs weighing less than 140 pounds for feeding for more than one month: *Provided*, That all hogs sold to a dealer, an order buyer or a slaughterer, other than a farm slaughterer shall be deemed to be sold for slaughtering purposes. On and after October 9, 1945, if hogs are sold to a dealer, an order buyer or a slaughterer for any exempt purpose the dealer, order buyer, or slaughterer, or any authorized person acting in such purchaser's behalf shall provide the seller with a signed statement indicating the specific exempt purpose for which such hogs are being bought before such sale shall be exempt. On and after October 9, 1945, any seller selling hogs to a dealer, an order buyer or a slaughterer for an exempt purpose shall require such purchaser to provide him with the signed statement hereinbefore required, and such seller, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, shall keep and preserve such signed statement for inspection by the Office of Price Administration. The buyer similarly shall keep and preserve an exact copy of the signed statement hereinbefore required. In ad-

dition to the foregoing, all sales of hogs whether for exempt purposes or otherwise, made to or by a dealer, an order buyer or a slaughterer other than a farm slaughterer shall be subject to the record-keeping provisions of section 8 and the invoicing provisions of section 12 of this regulation.

[Paragraph (a) amended by Am. 15, 10 F.R. 12648, effective 10-9-45; Am. 19, 11 F.R. 1213, effective 2-5-46 and Am. 21, effective 5-28-46]

(b) To sales of live hogs outside of the 48 states of the United States and the District of Columbia; or

(c) To sales or deliveries of live hogs by members of 4-H Clubs, Future Farmers of America, or other recognized farm youth organizations, if the sales are duly approved and are made at the place and time of a fair, show or exhibition. Prior approval of the sales must be obtained from a state office of the Office of Price Administration by a county agent, county club agent, vocational agricultural instructor or the chief administrator of the state department of agriculture.

(d) To sales or deliveries of live hogs which have been exhibited in competition at a fair, show, or exhibition, *Provided:*

(1) That such sales are made in the course of a regularly scheduled public sale held at the time and place of such fair, show or exhibition.

(2) That permission to hold such regularly scheduled public sale on a ceiling exempt basis has been obtained from the Director of the appropriate District Office of the Office of Price Administration prior to the sale. The Director of any appropriate District Office of the Office of Price Administration hereby is authorized to grant such permission by order, whenever the following conditions are met:

(i) Written request for such permission has been made by the president, secretary or manager of the organization promoting such fair, show or exhibition.

(ii) Such fair, show or exhibition must be recognized generally as being of state, regional (as distinguished from local) or national character.

(iii) The organization promoting such fair, show or exhibition must have been in existence prior to 1942; or must be an organization that is the legal successor to an organization which was in existence prior to 1942, such succession having occurred prior to November 1, 1945.

(iv) The fair, show or exhibition must have been promoted and held as a regular event prior to 1942 by an organization meeting the requirements of foregoing subdivision (iii).

(v) The traditional events occurring at such fair, show or exhibition prior to 1942 included a regularly scheduled public sale for slaughter of some or all of the live hogs exhibited.

(vi) For purposes of convenience requests for permission to hold such ceiling exempt sales made under this section 1 (d) (2) may be combined with requests

for similar permission filed under section 1 (b) (5) (ii) of Maximum Price Regulation No. 574.*

(3) That each live hog or lot of live hogs so sold or delivered to any purchaser at such fair, show or exhibition in the course of such regularly scheduled public sale shall be certified in writing to such purchaser by the secretary or manager of the organization promoting such event as follows:

(i) To have been entered and officially accepted for exhibition purposes at such fair, show or exhibition.

(ii) To have been exhibited in competition at such fair, show or exhibit.

(4) That the exemption herein made shall not extend to the sale at such fair, show or exhibition of live hogs not officially engaging in competitive exhibition in such fair, show or exhibition. For the purposes of this section 1 (d), live hogs which, as the result of the official action of any representative of the organization promoting such fair, show or exhibition, have been rejected for, or barred from competitive exhibition prior to the holding of the event in which competition winners are selected, shall not be deemed to have been exhibited at such fair, show or exhibition.

[Paragraph (d) added by Am. 18, 10 F.R. 14733, effective 12-3-45]

SEC. 2. *How ceiling prices on live hogs are fixed.* (a) The ceiling price for any live hog sold depends on the sex and age of the hog and on the location of the scales upon which the hog is weighed for sale. All hogs sold must be weighed at a terminal market, interior market or buying station.

[Paragraph (a) amended by Am. 6, 9 F.R. 5075, effective 5-15-44 and Am. 11, 9 F.R. 14606, effective 12-13-44]

(b) "Terminal market" means one of the municipalities named in Schedule I of Appendix A (section 13), and includes all of the public markets, slaughter houses, and places which, except for their location in such municipality, otherwise meet the requirements of a "buying station" as specified in this regulation.

(c) "Interior market" means one of the municipalities named in Schedule II of Appendix A (section 13), and includes all of the public markets, slaughter houses, and places which, except for their location in such municipality, otherwise meet the requirements of a "buying station" as specified in this regulation.

(d) "Buying station" means any fixed place of business, other than a terminal market or an interior market, where live hogs are weighed for sale and sold to the buyer and where a regular market is maintained. As used herein, "regular market" means a fixed place of business where hogs are regularly purchased and sold and where some person is, or persons are, regularly engaged in the business of buying and/or selling hogs. No place shall operate as a buying station which does not meet all of the requirements for buying stations specified in this regulation.

[Paragraphs (b), (c) and (d) amended by Am. 15, 10 F.R. 12648, effective 10-9-45]

(e) No place shall be deemed a terminal market, interior market or buying station unless it meets the following requirements:

(1) It must be equipped with pens, chutes and other facilities for loading, unloading, sorting and holding hogs.

(2) It must be equipped with scales adapted to the weighing of livestock: *Provided,* That scales adapted to the weighing of livestock located elsewhere than on the premises of the terminal market, interior market or buying station may be deemed to constitute part of the equipment of a terminal market, interior market or buying station if the conditions set forth in either of the following subdivisions (i) or (ii) are met:

(i) The terminal market, interior market or buying station used such scales in the regular conduct of its business for more than a year prior to January 1, 1944; and, on or before March 7, 1946, the operator of such terminal market, interior market or buying station filed with the appropriate District Office of the Office of Price Administration within whose jurisdiction the terminal market, interior market or buying station is located a signed statement setting forth: (a) the name and address of the business establishment for which the statement has been filed, (b) the date; (c) the location of the scales used and the owner or operator thereof; and (d) the approximate period prior to January 1, 1944, during which such scales were used regularly by the terminal market, interior market or buying station in the conduct of its business. In the event the statement herein required is not filed on or before March 7, 1946, the right of the establishment to operate as a terminal market, interior market, or buying station thereafter shall be suspended until the signed statement herein required has been filed. The permissive use herein authorized shall be subject to review by the appropriate District Director, and may be revoked or amended at any time to require the use of more conveniently located scales in any instance. In no event, however, shall the use of scales operated or controlled by a competing terminal market, interior market or buying station be required.

(ii) The terminal market, interior market or buying station has received written authorization from the appropriate District Director of the Office of Price Administration granting permission to use specified scales located elsewhere than on the premises of the terminal market, interior market or buying station. The District Director of the Office of Price Administration within whose jurisdiction the terminal market, interior market or buying station is located may, by order, authorize the use of specified scales located elsewhere than on the premises of a terminal market, interior market or buying station following written application therefor only if the following conditions are met:

(a) The scales to be used are adapted to the weighing of livestock.

(b) The scales to be used are located within reasonable proximity to the pens and chutes of the terminal market, interior market or buying station. In

* 10 F.R. 1270, 1404, 3691, 4099, 14733; 11 F.R. 1349.

determining what constitutes "reasonable proximity" the availability of suitable scales located nearer to the chutes and pens of the terminal market, interior market or buying station than those for which the permission is sought shall be accorded due consideration, but nothing herein contained shall be construed to require the use of scales operated or controlled by a competing terminal market, interior market or buying station.

[Paragraph (e) amended by Am. 15, 10 F.R. 12648, effective 10-9-45 and Am. 19, 11 F.R. 1213, effective 2-5-46]

(f) "Municipality" means the area within the corporate limits of a municipal corporation, and the zone adjacent to and commercially a part of such municipal corporation.

[Paragraph (f) added by Am. 2, 8 F.R. 13847, effective 10-7-43]

(g) "Sow" means a female hog that shows evidence of having produced pigs or that is in an evident stage of pregnancy.

(h) "Boar" means an uncastrated male hog.

(i) "Stag" means a mature castrated male hog that shows pronounced sex development or physical characteristics peculiar to the adult uncastrated male.

[Paragraphs (g), (h) and (i) added by Am. 11, 9 F.R. 14606, effective 12-13-44]

(j) "Auction market" means a place of business where live hogs are sold at auction, and which meets all the requirements of a terminal market, interior market or buying station as set forth in this regulation.

[Paragraph (j) added by Am. 19, 11 F.R. 1213, effective 2-5-46]

(k) "Farm slaughterer" means a person chiefly engaged in producing agricultural products as the resident operator of a farm and who does not sell or deliver meat of a dressed weight in excess of 6,000 pounds in any twelve consecutive months.

[Paragraph (k) added by Am. 21, effective 5-28-46]

Sec. 3. *How to find the ceiling prices for live hogs.* (a) First, find the location of the terminal market, interior market or buying station where the hogs are weighed for sale.

(b) Second, refer to Appendix A (section 13) for the ceiling price of live hogs other than sows, boars or stags. For the ceiling price of sows, boars and stags, refer to the prices listed in Appendix A (section 13) and subtract 75 cents per hundredweight from such prices.

(1) The ceiling prices for live hogs, other than sows, boars or stags, which are weighed at a terminal market for sale are found in Schedule I of Appendix A (section 13). The ceiling prices for sows, boars and stags which are weighed at a terminal market for sale shall be the prices listed in Schedule I of Appendix A (section 13) minus 75 cents per hundredweight.

(2) The ceiling prices for live hogs, other than sows, boars or stags, which

are weighed at an interior market for sale are found in Schedule II of Appendix A (section 13). The ceiling prices for sows, boars and stags which are weighed at an interior market for sale shall be the prices listed in Schedule II of Appendix A (section 13) minus 75 cents per hundredweight.

(3) The ceiling prices for live hogs, other than sows, boars or stags, which are weighed at a buying station for sale are found in Schedule III of Appendix A (section 13). The ceiling prices for sows, boars and stags which are weighed at a buying station for sale shall be the prices listed in Schedule III of Appendix A (section 13) minus 75 cents per hundredweight.

(4) The ceiling price for any lot of hogs in which sows, boars and/or stags are weighed simultaneously with hogs other than sows, boars and stags shall be, for all hogs so weighed simultaneously, the applicable ceiling price for sows, boars and stags.

[Subparagraph (4) added by Am. 19, 11 F.R. 1213, effective 2-5-46]

[Paragraph (b) amended by Am. 6, 9 F.R. 5075, effective 5-15-44; Am. 10, 9 F.R. 12969, effective 10-30-44 and Am. 11, 9 F.R. 14606; effective 12-13-44]

SEC. 4. *Service charges to buyers.* Note: Sales of hogs purchased at "public markets", as defined in paragraph (c) hereof, are exempt from the provisions of this section 4. Charges for services rendered in connection with such sales are subject to the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

[Above paragraph amended by Am. 15, 10 F.R. 12648, effective 10-9-45]

(a) *Dealer's service charge to slaughterers.* (1) The ceiling price for any lot of live hogs sold by a dealer shall be the applicable ceiling price determined as required by the provisions of section 3: *Provided*, That a dealer may collect only from a buyer who is a slaughterer (in addition to the applicable ceiling price) a service charge not to exceed:

The charges permitted by subparagraph (1) of this section 4 (a) shall apply only (i) to sales to slaughterers of hogs weighed at the fixed place of business regularly utilized by the dealer and purchased from the producer by the dealer at such fixed place of business; or (ii) to sales of hogs weighed at an auction market and purchased at such auction market by the dealer and resold to a slaughterer.

[Paragraph (a) amended by Am. 1, 8 F.R. 13741, effective 10-5-43; Am. 3, 9 F.R. 694, effective 1-22-44; Am. 8, 9 F.R. 12279, effective 10-14-44; Am. 12, 10 F.R. 3055, effective 3-26-45 and Am. 15, 10 F.R. 12648, effective 10-9-45]

(b) *Order buyer's service charges to slaughterers.* (1) On and after October 9, 1945, and notwithstanding the terms of any contract or agency, contract of employment or other contractual arrangement heretofore entered into by a slaughterer and an order buyer (except contracts calling for the payment of salary or wages at regular fixed intervals and which are not dependent upon the volume of hogs purchased for the slaughterer by the order buyer), no slaughterer shall pay, give, grant, or assume liability to pay, give, or grant wages, commissions, fees, dividends, bonuses, gratuities or other forms of compensation to an order buyer in excess of \$0.05 per hundredweight for the services performed by such order buyer in purchasing hogs for the account of such slaughterer; and no order buyer shall accept, claim, or otherwise receive wages, commissions, fees, dividends, bonuses, gratuities or other forms of compensation from a slaughterer in excess of \$0.05 per hundredweight for the services performed by such order buyer in purchasing hogs for the account of such slaughterer.

(2) An order buyer is a person who, as the agent of a slaughterer, purchases hogs for such slaughterer and meets all of the following requirements:

(i) The hogs purchased by such agent must be weighed for purchase at a terminal market, an interior market or a buying station.

(ii) The hogs purchased by such agent must be for the account of the slaughterer.

(iii) The title to the hogs purchased must not vest in the agent, but shall vest immediately in the slaughterer. Nothing herein contained, however, shall be construed to prevent such an agent from asserting any lien he may have acquired against hogs in his possession for money expended by him on behalf of such slaughterer in the purchase of the particular lot of hogs against which the lien is asserted.

(iv) The invoice, receipt or other written evidence of sale must indicate that

title to the hogs purchased is transferred directly from the seller to the slaughterer.

(v) The legal authority to bind the slaughterer to pay the seller for the hogs purchased by such agent on behalf of the slaughterer must exist. Nothing herein contained, however, shall be construed to prevent such slaughterer's agent from paying the seller on behalf of the slaughterer from funds belonging to the agent.

[Paragraph (b) amended by Am. 15, 10 F.R. 12648, effective 10-9-45]

(c) "Public market" means a stockyard which is under the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

[Paragraph (c) added by Am. 8, 9 F.R. 12279, effective 10-14-44]

(d) *Feeding and bedding charges.* Any dealer or other buyer who furnishes necessary feed or bedding for hogs after being weighed for purchase by a slaughterer and which are either awaiting shipment or are in transit to such slaughterer may charge the slaughterer an amount not to exceed the prevailing market cost of the feed consumed or the bedding used at the point where such feed and/or bedding was provided if the shipment is other than by rail. If the shipment is by rail, the total amounts charged shall be at the same rates which the rail carrier could have charged under its tariffs if it had performed the services. Where such charges are made, under either set of circumstances, an accurate written statement of the items entering into such charge must be given the slaughterer.

SEC. 6. *When the new ceiling prices take effect.* On October 4, 1943, the ceiling prices fixed by this regulation take effect. On and after October 4, 1943, no person shall sell or deliver and no person in the course of trade or business shall buy or receive live hogs at a price higher than the ceiling price fixed by this regulation; and no person shall offer to sell live hogs in excess of these ceiling prices.

SEC. 7. *Conditions of sale.* (a) All live hogs sold shall be weighed at a terminal market, interior market or buying station, and all sales of live hogs shall be deemed made on the day of weighing. Live hogs sold to different buyers must be weighed separately.

(b) No sale of live hogs shall be made except at the weight so determined.

(c) All expenses of transporting the hogs to the place of weighing shall be paid by the seller. If the buyer trans-

ports the hogs to the place of weighing, a transportation charge of not less than 5 cents per 100 pounds for distances up to and including 6 miles, and not less than 10 cents per 100 pounds for distances over 6 miles, must be deducted from the applicable ceiling price to be paid to the seller by the buyer. The amount of such transportation charge must be shown on the invoice, receipt or other written record of the sale.

[Paragraph (c) amended by Am. 15, 10 F.R. 12648, effective 10-9-45]

(d) The person weighing each live hog or lot of live hogs sold shall write on the invoice of such sale or the receipt evidencing such sale (1) the weight and number of hogs other than sows, boars and stags; (2) the weight and number of sows, boars and stags; (3) his name; and (4) the place and date of weighing: *Provided*, That this requirement shall not apply in the event the person weighing the particular lot of live hogs sold is required by regulation of another Federal governmental agency or by State statute or regulation of a State governmental agency to execute a scale ticket in triplicate containing the same information required to be written on the invoice or receipt by this paragraph (d), except that it may contain the weight and number of hogs weighed in place of the information required by subparagraphs (1) and (2) hereof, and one copy of such scale ticket is delivered to the buyer, one is delivered to the seller or his agent, and one is retained by the weighing agency: *Provided further*, That in the event that the price charged or paid per hundredweight for a lot of live hogs sold does not exceed the ceiling price, at the point of weighing of such lot of live hogs, for sows, boars and stags, the person weighing such lot of live hogs may write on the invoice of such sale or the receipt evidencing such sale the weight and number of hogs weighed in place of the information required by subparagraphs (1) and (2) of this paragraph (d).

[Paragraph (d) amended by Am. 6, 9 F.R. 5075, effective 5-15-44; Am. 7, 9 F.R. 5435, effective as of 5-15-44; Am. 10, 9 F.R. 12969, effective 10-30-44 and Am. 11, 9 F.R. 14606, effective 12-13-44]

SEC. 8. *Records and reports.* (a) Every person who sells, or in the course of trade or business buys or receives live hogs, and every agent of such a person for sale or purchase shall make and preserve for so long as the Emergency Price Control Act of 1942 remains in effect complete and accurate records of each such sale or purchase showing (1) the date; (2) the name and address of the buyer and the seller; (3) the place at which the live

hogs sold were weighed; (4) the weight and number of hogs other than sows, boars and stags, and the price charged or received or paid therefor; and (5) the weight and number of sows, boars and stags, and the price charged or received or paid therefor. In the event that the price charged or paid per hundredweight for a lot of live hogs sold does not exceed the ceiling price, at the point of weighing of such lot of live hogs, for sows, boars and stags, the record of the sale or purchase may show the weight and number of hogs sold and the price charged or received or paid therefor in place of the information required by subparagraphs (4) and (5) of this paragraph (a).

(b) On and after February 5, 1946, and for as long as the Emergency Price Control Act of 1942, as amended, remains in effect, any buyer receiving the invoice and any seller receiving the receipt referred to in paragraph (a) of this section, any buyer or seller or seller's agent receiving copies of the scale ticket referred to in section 7 (d) and any slaughterer receiving the written statement of the items entering into any charge for feed and bedding referred to in paragraph (d) of section 4 shall keep and preserve such invoice, receipt, scale ticket, or written statement for inspection by the Office of Price Administration.

SEC. 9. *Indirect price increases.* The price limitations set forth in this regulation shall not be evaded directly or indirectly. An example of an indirect price increase forbidden by this section is a sale of some other commodity to the buyer in conjunction with the sale of live hogs, where the buyer did not normally buy this commodity from the seller in the past. Except as provided in section 4 (a), no payments, commissions or allowances for any service, or for transportation or shrinkage, or for any other purpose shall be made by the buyer of live hogs to the seller, unless the total sales price, including such payment, commission or allowance, is equal to or less than the maximum price: *Provided*, That the following payments shall not be construed as evasions of the price limitations under the following conditions:

(a) A payment or service charge by a buyer to the seller for services rendered to the buyer, if such payment is in accordance with tariffs for such services filed by the seller pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended.

(b) A payment by a buyer to the seller for transporting live hogs from the place of weighing to the buyer's delivery point, if the seller is a common carrier or if the rate paid does not exceed that fixed by the General Maximum Price Regulation.⁹

(c) A payment by a buyer to an order buyer for transporting live hogs from the place of weighing to the buyer's delivery

(b) The sale of any hog at farm weights to any buyer for purposes other than breeding, serum production or feeding for more than one month is prohibited. (3) The sale or purchase of hogs conditioned upon the performance of any service by either the seller or the buyer of the hogs and for which provision is not made in this regulation, or, if the sale is made at a public market, in the rules and regulations established by the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

(4) The charging or receiving, or the owing or paying of any consideration, whether money or otherwise, for services not authorized to be performed and paid for under the provisions of this regulation, or, if the sale is made at a public market, for services not authorized to be performed and paid for under the provisions of the rules and regulations established by the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

PART 1305—ADMINISTRATION

[SO 160]

INDIVIDUAL ADJUSTMENTS TO MAINTAIN
NORMAL PEACETIME EARNINGS FOR CERTAIN INDUSTRIES

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith has been filed with the Division of the Federal Register.

SECTION 1. *Scope of this supplementary order.* This supplementary order provides a method by which manufacturers in certain industries, which are listed in Appendix A, may automatically increase their ceiling prices for the commodities they manufacture included within the listed industry or industry group. The increase, if any, to which the manufacturer is entitled under this order, is one which will enable him to earn at least the margin of profit to sales specified for his industry in Appendix A, after taking into consideration the recent changes in wage rates and materials prices. This order is a part of the general program of OPA under the new wage price policy contained in Executive Order 9697. For most industries in which adjustments are required under the Executive order, action will take the form of a percentage increase which each manufacturer may add to his existing ceiling prices, calculated to give the industry as a whole a return on net worth equal to the 1936-1939 rate after giving effect to current wage rates and materials prices. Because of the urgent need for prompt action and the size of the undertaking it will plainly be impossible to make a study of every industry to ascertain the increase required, if any. The industries listed in Appendix A of this order are those for which no study will be made. They are industries which are not of a major significance in the total national economy or those which are not comprised of any well-defined group of manufacturers so that individual adjustment is a suitable method of meeting the requirements of the Executive order. No industry will be listed, however, unless it appears that industry action would otherwise be required within three months under the terms of Executive Order 9697.

SEC. 2. *How to proceed under this order.* If your industry is listed in Appendix A, you can figure the amount of

ceiling price increase, if any, to which you are entitled under this order by using OPA Form 611-2800 which can be obtained from any OPA District Office, where you may also receive assistance in completing the form. If you qualify for an increase, you then file two copies of the form with the OPA District Office for the district in which your principal place of business is located. Unless OPA notifies you not to do so, you may begin to sell and deliver articles at your new ceiling prices twenty days after you mail your report to OPA. However, if within the twenty-day period OPA asks you to furnish additional information, you may not begin to sell and deliver at your new ceiling prices until twenty days after the day you mail the information which OPA has requested. OPA may later order any of the new ceiling prices to be decreased (but not retroactively if it finds you did not calculate them correctly).

(The word "you" in this order means any manufacturer affected by it)

SEC. 3. *How to calculate your new ceiling prices.* To calculate the amount of increases, if any, which you are allowed under this order, follow the procedure described in OPA Form 611-2800, and its accompanying instructions, which are a part of this supplementary order.

In general, the adjustment will be calculated as follows:

First, select the profit and loss statement for the year 1945 for the smallest unit of your business for which you regularly maintain separate accounts and which manufacturers the products of the industry listed in Appendix A. If your fiscal year did not begin on January 1, 1945, use the profit and loss statement for the most recent fiscal year.

Second, add to the total cost figure in the profit and loss statement an amount which reflects the "approved" increases in wages and salaries and the legal increases in materials prices or decreases in materials costs which have taken place since the closing date of the profit and loss statement.

An "approved" wage increase is one which the Price Administrator is permitted to take into account under the Supplementary Wage and Salary Regulations issued by the Economic Stabilization Director on March 8, 1946. These include all wage and salary increases lawfully made before February 14, 1946, with or without specific approval of the appropriate wage or salary stabilization agency, any wage or salary increase made at any time in accordance with a governmental recommendation in a wage controversy announced before February 14, 1946, increases made on and after February 14, 1946 by most employers employing eight or less employees, and other increases which have been given specific approval by regulations or specific order of the Office of Economic Stabilization, the Wage Stabilization Board or other appropriate wage or salary stabilization agency.

Third, you may, if you wish, add to the total cost figure a further amount, to take account of increases in "approved" wages and salaries and legal increases and decreases in materials prices which occurred during the accounting period

covered by the statement but which did not affect your production costs during the entire period and therefore are not completely reflected in the statement. (For example, if the ceiling price of a particular material you use was increased on July 1, 1945 so that thereafter you charged it to your production cost at a 10% higher rate, you may increase your total cost figure by 10% of the total amount of that material used prior to that date, since the profit and loss statement shows the effect of the increase for only half the year, if you operate on a calendar year basis.)

Fourth, if these net increases in total cost reduce your percentage of profit to sales below the percentage listed opposite your industry or industry group in Appendix A, you may increase your ceiling prices for the commodities included under the industry or industry group in Appendix A by an amount sufficient to restore that profit percentage. (The percentages listed in Appendix A have been calculated to return a percentage of profit to sales equivalent to the return on net worth earned by the particular industry or industry group on the average during the years 1936-1939.)

NOTE: If your ceiling price for a particular product changed during the accounting period, a special adjustment for that fact must be made. This adjustment is explained on OPA Form 611-2800.

SEC. 4. When the 1945 profit and loss statement is unrepresentative. If your 1945 profit and loss statement

(a) Shows net sales of less than 75% of your 1941 sales, or

(b) Includes sales on contracts or sub-contracts with any United States war procurement agency or with any Allied Government of more than one-third of your total sales,

Then you may not use the 1945 profit and loss statement as a basis for calculating your increase. Instead you will make your adjustment from your profit and loss statement for the most recent three-month period beginning not earlier than January 1, 1946, unless your operation during those months was affected by strikes, seasonal factors, or was otherwise distorted, in which event you may use the most recent quarterly statement not affected by distorting factors.

NOTE: If you were not in business during 1941, use your profit and loss statement for the most recent fiscal years. If you were not in business before January 1, 1945, however, you should use the quarterly statement called for by this section.

SEC. 5. Wholesale and retail ceiling prices—(a) Items other than food. Wholesalers and retailers may increase their ceiling prices as provided in Supplementary Order 153—Adjustments at Wholesale and Retail Where Suppliers Have Received Individual Adjustments. Under that order, wholesalers and retailers may increase their ceiling prices by the percentage by which the manufacturer may increase his ceiling price under this order, when the ceiling price of the article being sold by the wholesaler or retailer is fixed under the General Maximum Price Regulation, or Maximum Price Regulation 142 or 210. Each

manufacturer who receives an adjustment under this order must therefore provide each of his customers, before, or at the time of the first sale at the higher ceiling price, with a notice stating that the OPA has allowed the manufacturer an individual increase under this order and giving the percentage of the manufacturer's individual increase. Wholesalers receiving such a notice must give the same or a similar notice to their customers, before or at the time of their first sale at the higher ceiling price.

(b) Food. With the first delivery after the date of any change in a seller's ceiling price under this order of an item of food covered by MPR 421, 422, or 423, the seller shall supply each wholesaler and retailer subject to those regulations, with written notice reading as follows:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, container type and container size) has been changed under Supplementary Order 160. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation No. 421, 422, or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier with this notification after (insert date of change in ceiling price). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422, or 423, whichever is applicable to you.

For the period of 60 days after figuring the new ceiling price for the item, and with the first shipment after the 60 day period to each person who has not made a purchase within that time, the seller shall include in each case, carton or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, the seller may supply the notice by attaching it to, or stapling it on, the invoice covering the shipment, instead of providing it with the goods.

SEC. 6. Orders modifying this supplementary order. The provisions of this supplementary order as applied to certain commodities or persons subject to the order, may be modified by general orders under this section or by orders under any regulation establishing manufacturers' ceiling prices for articles subject to this supplementary order.

SEC. 7. Delegation of authority. The Price Administrator, any Regional Administrator, and any District Director who has been authorized to act by the appropriate Regional Administrator, may make adjustments or act upon applications for adjustment under this order.

This supplementary order shall become effective on the 28th day of May 1946.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of May 1946.

PAUL A. PORTER,
Administrator.

REPORT OF CEILING PRICE ADJUSTMENT
UNDER SUPPLEMENTARY ORDER NO. 160

Address—Number and street

City, postal zone number, State

File two copies of this report with the
District Office for the district where your
principal place of business is located.

READ THE INSTRUCTIONS CAREFULLY BEFORE YOU BEGIN TO FILL OUT THIS FORM

You may use this form to report an adjustment in your ceiling prices only if you manufacture commodities within one or more of the industry classifications listed in Appendix A of Supplementary Order 160 and if your existing maximum prices for those commodities do not permit you to realize the margin of profit designated for each industry classification in Appendix A of that order.

To calculate the amount of the adjustment, if any, to which you are entitled, you must first determine in Part I the appropriate organizational unit of the business and the fiscal period which you will use as a basis for the calculations. Second, you must supply in Part II the profit and loss statement covering the organizational unit and the fiscal period selected in Part I. Any adjustments in that profit and loss statement necessary to reflect current materials prices, wage rates, salaries, and ceiling prices on your product may be reported in Part III. You may then determine in Part IV, from the preceding information, the increase factor which you apply to your existing ceiling prices to determine your new ceiling prices.

PROCEDURE

1. File duplicate copies of this form when completed with the OPA District Office for the district where your principal place of business is located.
2. Unless notified to the contrary, you may begin to sell and deliver articles at your new maximum prices 20 days after you mail this report to OPA (or 20 days after you mail any additional information OPA requests from you). However, after this 20-day period, OPA may require you to change any of the new ceiling prices if it finds that you did not calculate them correctly.

PART I—SELECTION OF THE APPROPRIATE PROFIT AND LOSS STATEMENT

Select in Item 1 below the organizational unit on which your report will be based. Then fill in the sales information relating to this organizational unit in Item 2. On the basis of this information, you will determine in Item 3 whether to use the profit and loss statement covering your most recent fiscal year or your most recent quarter after January 1, 1946.

1 Name of organizational unit			
2 Classification of Sales. Fill in the following sales information relating to the organizational unit selected in Item 1 for the periods specified.

If your answer is "no" to either of these questions, then you must supply in Item 4 the profit and loss statement covering your most recent quarter after January 1, 1946.

b Were your sales on contracts and subcontracts with any U. S. War Procurement Agency or any Allied Government during your most recent fiscal year (Item 2a, line 1, column 2) equal to or less than one-third of total sales during that period in the organizational unit reported in Item 1 (Item 2a, line 3, column 2). PART II—FINANCIAL DATA

The basic financial information on which the adjustment will be determined is set forth in this Part II.

- 4 Profit and loss statement. Supply in column 2, a profit and loss statement for the organizational unit selected in Item 1 and for the fiscal period determined in Item 3. PART III—CALCULATION OF COST AND SALES ADJUSTMENTS

The adjustments necessary to reflect current materials prices, wage rates, salaries, and ceiling prices on your product may be calculated in Items 5 through 8 below.

If no substantial changes have occurred in any of these factors during or since the accounting period reported in Item 4, you may omit this Part III entirely and move directly to the calculation of your price adjustment in Part IV.

If such changes of a substantial nature have occurred, the adjustments in this Part III will enable you to have them reflected in your price increase.

To simplify the calculations, you may prefer to limit consideration only to changes occurring since the closing date of the accounting period reported in Item 4. If you wish, however, you may also report changes which occurred during that accounting period, but in this case, since the changes would already be partially reflected in your profit and loss statement, the adjustment would apply only to costs incurred, or sales prior to the change.

You may omit any of the cost schedules below (Items 5 through 7) where no changes have occurred or where the changes do not seem to be sufficiently important to warrant consideration. However, if you report any changes in Items 5 through 7, you must fill in Item 8 for the same period.

Please check below the basis of your calculations.

- ☐ Adjustment to cover only changes since the closing date of the accounting period reported in Item 4, Column 2.
☐ Adjustment to cover changes since the beginning of the accounting period reported in Item 4, Column 2.

SPECIFIC INSTRUCTION TO ACCOMPANY OPA FORM 611-2800

PART I—SELECTION OF THE APPROPRIATE PROFIT AND LOSS STATEMENT

Item 1: Identify the organizational unit for which you are submitting a profit and loss statement in Item 4. This should represent the smallest unit of your business for which you regularly compile a separate statement and which includes all the commodities falling within one or more of the industry classifications listed in Appendix A. This profit and loss statement, therefore, may be for a department, division, plant, subsidiary, or any other unit for which separate accounts are customarily compiled. If there are no such operating subdivisions, the statement will cover the entire business.

Where eligible commodities are manufactured in two or more organizational units, you will need to file a separate report for each such unit. If you prefer, however, you may calculate your adjustment for all the eligible commodities in a single report, provided that the calculations are based on a consolidated profit and loss statement covering all the affected departments. In this case, identify all the organizational units which you have combined for the purposes of the report.

Item 2b: List only industry classifications appearing in Appendix A of the Order. The figures in columns 2 and 3 should cover total sales of all commodities in each of the eligible industry classifications, including sales on contract or subcontract with the U. S. or an Allied Government.

Item 3: If you are required to report on a quarterly basis, you must report for the most recent quarter after January 1, 1946, unless your operation during those months was affected by strikes or was otherwise distorted. In this case, select the most recent quarter during which such distorting factors were not present.

If you report for an alternative quarter, because of such abnormalities in your most recent quarter, then you must submit on a separate sheet a statement describing the conditions which you regard as causing your most recent quarter to be unsatisfactory.

If you were not in business during 1941, use your profit and loss statement for the most recent fiscal year. However, if you did not enter business before January 1, 1945, you should use the quarterly statement.

PART II—FINANCIAL DATA

Item 4: The profit and loss statement must be prepared in accordance with generally accepted accounting principles. In addition, the following rules must be observed:

(a) The profit and loss statement must not reflect costs due to (1) unlawful or unapproved wages or salaries, (2) unlawful prices for materials, (3) provision for special reserves and contingencies, or (4) amortization of emergency facilities at depreciation rates in excess of normal.

(b) If there have been transactions with affiliated corporations or businesses which either are of a kind which would not result from arms' length bargaining or which differ from the transactions which the manufacturer has customarily had with such affiliates, the profit and loss statement must be adjusted to reflect the results which would emerge from such arms' length bargaining or the normal relations with your affiliates.

Column 2. Supply the profit and loss statement for the organizational unit identified in Item 1. This will cover your overall operation if the information cannot be supplied for a subordinate organizational unit.

Column 3. If an organizational unit is reported in Column 2, supply in Column 3, the profit and loss statement for the next highest organizational unit which includes the unit reported in Column 2. If you are reporting your overall operation in Column 2, you may omit column 3.

Item 4b: In determining the total for materials used, the same inventory valuation method must be used in determining both the beginning and the ending inventory.

Items 4d, 4f, and 4g: Do not include in these items any amounts not properly chargeable as operating costs or expenses applicable to the particular P & L period.

Item 4e: The same inventory valuation method must be used in determining both the beginning and the ending inventory.

NOTE.—Any adjustments to your profit and loss statement which are necessary in order to conform to the above instructions should be shown and fully explained on a separate sheet and filed with your report.

PART III—CALCULATION OF COST AND SALES ADJUSTMENT

Item 5, Column 1: Identify each material or part on which you experience a price change (increase or decrease) during the

period for which you are reporting cost and price changes and which you consider sufficiently important to include in the adjustment of your profit and loss statement.

Column 2: Give date of first invoice on which material or part was billed to you at the changed price.

Column 3: Enter the dollar amount of the material specified in Column 1 which was used during the accounting period prior to the date you began charging the material to production at the higher price. If you are reporting cost and prices changes since the close of that accounting period, the figure in this column will equal the total of the material used during the accounting period. The date on which the material is first charged to production at the changed price will ordinarily be later than the date in Column 2 by the number of days' inventory of the material on hand when it was first invoiced at the changed price.

If more than one material price change is reported for the same material, then for each subsequent change enter the dollar value of the material used during the accounting period prior to the date you began charging the material to production at the changed price plus any amounts entered in Column 5 covering previous changes in the price of that material.

Column 4: Calculate the percentage change in the price for the material by dividing the difference between the price before and after the adjustment by the price before the adjustment. The prices used for this calculation should be those appearing on the last invoice before the change and on the first invoice on which the material was billed at the changed price.

The processing of your case will be expedited if you submit with your application the invoices (or copies thereof) used in calculating these percentages. These will be returned to you upon request.

Column 5: The figure for a price decrease should be entered as a negative quantity.

Item 6a, Column 1: An entry should be made for each separate occasion of an approved wage increase among the factory employees in the organizational unit designated in Item 1. The change might involve only one job, or might include several job classifications, or even the whole of a department or plant.

An "approved" wage increase is one which the Price Administrator is permitted to take into account under the Supplementary

Wage and Salary Regulations issued by the Economic Stabilization Director on March 8, 1946.

These include all wage and salary increases lawfully made before February 14, 1946, with or without specific approval of the appropriate wage or salary stabilization agency, any wage or salary increase made at any time in accordance with governmental recommendation in a wage controversy announced before February 14, 1946, increases made on and after February 14, 1946 by most employers employing eight or less employees, and other increases which have been given specific approval by regulations or specific order of the Office of Economic Stabilization, the Wage Stabilization Board or other appropriate wage or salary stabilization agency.

Column 2: Give date of specific approval. If such approval was not required, give date the adjustment was instituted. List only adjustments occurring within the relevant period checked on the form: that is, since end of the fiscal period reported in Item 4 or since the beginning of that period.

Column 3: Enter the total wages paid to the group specified in Column 1 during the accounting period but prior to the date the adjustment was reflected in current payrolls. If you are reporting cost and price changes since the close of that accounting period, this figure will equal the total wages paid that group during the entire accounting period.

If more than one wage change is reported for the same labor group, then for each subsequent change enter the total wages paid that group during the accounting period prior to the change plus any amounts entered in Column 3 covering previous changes in wages paid that group.

Column 4: Enter the percentage change in the wage rates of the groups specified in Column 1. If the wage adjustment was authorized in cents per hour, you may convert it to percentage terms by dividing the amount of the change by the average straight-time hourly earnings of the group during the last normal payroll period immediately prior to the adjustment.

If the group includes more than one job classification or level receiving non-uniform adjustments, the figure reported should represent the weighted average of all the changes. The weighted average may be determined by multiplying the amount of each separate change by the number of employees affected and dividing the sum of these products by the total number of employees receiving the adjustment.

Wage changes in the form of fringe adjustments, such as in paid vacations or shift differentials, may also be included. Such adjustments must be converted to the average percentage effect they will have on total payroll.

Column 5: Indicate type of authorization as follows:

(a) For each specific authorization, insert the WLB or WSB Agency ordering or approving the change, the case number, and the date of the ruling or order.

If the group includes employees receiving non-uniform adjustments, the figure reported should represent the weighted average of all the changes. See the Instruction to Item 6, Column 4, for the method to be used in computing a weighted average.

Column 6: If the adjustment came within the jurisdiction of the War Labor Board or the Wage Stabilization Board, follow the instructions to Item 6, Column 6. If it was within the jurisdiction of the Stabilization Unit of the Bureau of Internal Revenue, then identify BIR Office approving the change and give approval date.

Item 8, Column 1: List each product on which there has been a price adjustment during the period for which you are reporting cost and price changes.

Column 4: Enter the dollar amount of the sales of the product prior to the date the

adjusted ceiling price became effective. If you are reporting changes in costs and prices occurring since the close of the accounting period reported in Item 4, then enter the total sales of the produce during that period. If you are reporting increases in ceiling prices occurring during the accounting period, and if more than one increase occurred, enter for each increase the actual sales of the product prior to the increase plus the amount of the increase resulting from previous adjustments on that product, and recorded in Column 5.

Column 6: Give details of OPA authorization, including date, order number, if any, and Office approving the increase.

PART IV—DETERMINATION OF PRICE ADJUSTMENT

Item 10: To arrive at your new maximum prices, you multiply the maximum prices of each article in each eligible commodity group in effect on the date the application was filed by the appropriate factor appearing on line f. The percentage increase to which you are entitled is indicated by the numbers to the right of the decimal point. Thus an increase factor of 1.075 means you may increase your prices by 7½ per cent. If the factor you derive is less than 1.00 (e. g. 0.95), you are not entitled to any adjustment under the order and you should not file a report.

You may apply the increase factor only to the eligible commodities even though other commodities may have been covered by the profit and loss statement used as a basis for the calculations.

(b) For other adjustments, such as those under WLB or WSB general orders, or voluntary adjustments between August 18, 1945 and February 14, 1946 (which were automatically approved by Executive Order 9697), indicate type of authorization and the authorizing WLB or WSB Agency if they are relevant.

Item 6b, Line 1: Give dates of payroll periods used. If you are adjusting for cost and price changes since the end of the accounting period used in Item 4, report in Column 2 for the last payroll period in that accounting period. If you are adjusting for cost and price changes since the beginning of the accounting period, report for the first payroll period in the accounting period during which wage rates remained unchanged.

Report in Column 3 for your most recent payroll period.

Line 2: Fill in number of hours worked by all factory employees in the organizational unit reported in Item 1 during each of the payroll periods used.

Line 3: Total earnings of employees at straight-time rates means earnings (1) before deductions for Social Security, withholding taxes, insurance, hospitalization dues, etc., (2) inclusive of regularly recurring bonus payments, such as production bonuses, and (3) exclusive of extra payments for overtime, and bonus payments that are not a part of regular earnings.

Item 7, Column 1: Identify each group of employees whose salaries are included in your selling, general and administrative expense (Item 4f) and which were granted a separate adjustment during the period for which you are reporting such changes.

Column 2: Give date on which change was made.

Column 3: Enter the aggregate amount of the salaries paid to the group specified in Column 1 during the accounting period but prior to the date the adjustment was reflected in current salary payments. If you are reporting cost and price changes since the close of that accounting period, this figure will equal the total salaries paid that group during the entire accounting period.

If more than one salary change is reported for the same group of employees, then for each subsequent change enter the total salaries paid that group during the accounting period prior to the change plus any amounts entered in Column 3 covering previous salary changes for that group.

Column 4: Enter the percentage change in the salary rates of the group specified in Column 1. If the adjustment was established in dollar and cents terms, you may convert this to a percentage by dividing the amount of the change by the average salary rate of the group prior to the adjustment.

[P. & S. Docket No. 1211]

ST. PAUL UNION STOCK YARDS CO.

NOTICE OF PETITION FOR MODIFICATION

By a document filed on May 1, 1946, the respondent requested a modification of the provisions of orders entered on February 4, 5, 1946 (5 AD 83, 85), which modified a schedule of rates and charges prescribed in the basic order entered in this proceeding on September 7, 1940.

In support of its request for modification, the respondent averred the following: On January 26, 1946, as a result of a strike at its stock yards its property was seized by order of the President of the United States and thereafter protracted negotiations were carried out by respondent and the local unit of the United Packinghouse Workers of America who represent respondent's employees. On April 15, 1946, the United Packinghouse Workers of America petitioned the National Wage Stabilization Board to grant a general wage increase of 16 cents per hour retroactive to January 26, 1946, which petition was granted. On April 29, 1946, an order was signed by the President directing the respondent to put into effect the increased wage rates. Respondent stated that the petition herein is occasioned by the increased operating expenses which will accrue to it from the effect of the order of the President. Accordingly, respondent seeks a modification of the rates and charges now in effect to permit it to file a supplement to its tariff increasing its rates and charges as follows:

Yardage:	Cents per head
Cattle.....	56
Calves (300 lbs. or under).....	36
Hogs.....	18
Sheep.....	12
Horses and mules.....	56
Colts.....	40

Regular yardage charges will be collected on so-called "plants" in the Commission Division, including stockers and feeders when so planted.

Exceptions:

On livestock consigned direct to packers located at South St. Paul, one-half of the above rates will apply.

No yardage charge will be collected on the following:

A. Through-billed livestock unloaded for feed, water and rest only, not sold or weighed.

B. Livestock originating at country points, consigned to or in care of, or guaranteed by a commission firm, billed through or direct, offered for sale and not sold.

C. Livestock originating at public markets, consigned to commission agencies or dealers at this market, offered for sale, not sold, but forwarded without change in ownership.

D. Livestock received for dipping, spraying, testing or vaccinating.

The rates now set forth in respondent's tariff on file with the Secretary are as follows:

Yardage on initial sales, and yardage on resales in the commission division:	Cents per head
Cattle.....	44
Calves.....	30
Hogs.....	15
Sheep.....	10
